

What's a Wiggle Worm, and How Does it Grow?

Dear Kindergarten and First Grade Parents,

This year in the library we will once again have our wiggle worm challenge. Kindergarten and First graders will compete to see who's worm will have the most wiggles. Each time your child's class reads fifty books a new wiggle will go on their worm! Students who are not yet reading will get credit for book read to them. Below is an example of the simple form you and your child should fill out each week. Simply indicate the number of books read each week and return this form to your child's teacher. The teachers will then forward these forms to me and our library volunteers will begin to place wiggles on the worms. Whenever you need extra forms simply visit www.redeemerstuart.com/media.html

At the end of the school year the class with the most wiggles on their worm receives an all you can eat gummy worm and ice cream feast! Come to the library and see for yourself what a wonderful and "wiggly" bunch of readers we have!

Forever Reading and Rejoicing!

Mrs. Hascup
Media Specialist, RLCS
